

Lee Ee Lin graduated from Universiti Sains Malaysia in 2003 with a Bachelor of Pharmacy. After graduation, she has been working in community pharmacies and had been involved in various clinical researches such as Phase I clinical trials, Bioequivalence Studies at Info-kinetics and Quest Trial Clinical Research for more than 5 years.

In year 2008, she started studying traditional Chinese medicine (TCM) under various teachers in advancing her skills in acupuncture, moxibustion, cuppings and acupressure. As a TCM physician, she focuses in treating conditions related to orthopaedics, traumatology and stroke related disabilities.

She has been offering her services, as a pharmacist or TCM physician, in various voluntary organizations such as Penang Buddhist Association, Amata Clinic and Tzu Chi.

Ee Lin graduated with a Bachelor in Chinese Medicine from Xiamen University, China in 2014.

Ee Lin has her personal TCM clinic in Sungai Petani and offers personal consultation services as well. For those interested, you may contact her at 016 4878950
